

Information to customers and suppliers!

As of March 1, 2020 all operations in AB Somatherm (556200-6931) will be passed onto two new companies:

Somatherm Heating & Drying AB (559241-8007)

Somatherm VVS AB (559241-7991)

Jan-Olov Olsson will retire after a long time at AB Somatherm. Andreas Lind will continue to work with purchasing and sales at Somatherm Heating & Drying AB.

All other staff will remain but will be divided into the different companies based on previous work assignments. For customers or suppliers there will not be any practical changes other than new bank accounts and payment information.

Somatherm Heating & Drying AB will be owned and lead by Niclas Söderholm who has been working within AB Somatherm for nearly 30 years and has been in charge of towel dryers and hand dryers for a long time. As a business partner Niclas will have Magnus Johansson who previously worked at Ebeco in Gothenburg.

Somatherm Heating & Drying AB will take over and focus on the products that are included in the product areas towel dryers and hand dryers.

Somatherm VVS AB will be owned by Patrik Frödin who has worked at AB Somatherm for over 22 years and who has been responsible for the areas Pressurisation, Degassing & separation and valves and devices for both heating and drinking water for the past 10 years. Patrik will have Roger Andersson as a business partner and CEO. For the past 6 years Roger has worked as sales manager at Vaillant Sweden.

Somatherm VVS AB will take over and focus on the products included in Pressurisation, Degassing & separation and valves and devices for both heating and drinking water.

What will change as of March 1, 2020?

For you as a customer or supplier, we aim to ensure that everything will flow smoothly. When it comes to deliveries of goods, our goal is that there should be no interruption at all. If you are interested in towel dryers & hand dryers you will in the future turn to Somatherm Heating & Drying AB. If you are interested in Pressurisation, Degassing & separation and valves and devices for both heating and drinking water you will in the future turn to Somatherm VVS AB.
